

ProShield Prep n Prime

Roof Wash

TECHNICAL DATA SHEET

DESCRIPTION

ProShield Prep n Prime is a low viscosity detergent intended for application to all types of roof surfaces prior to power washing. **Prep n Prime** lifts dirt and grease from the surface of the roof. **Prep n Prime** is formulated from surfactants and alkaline cleaning agents. It is designed for use on asphalt, modified bitumen, metal and single ply roofs (TPO, PVC, Hypalon and EPDM).

APPLICATION

Mix one part **Prep n Prime** with four parts water. Over or under dilution will affect performance. Apply with a garden type sprayer in sufficient quantity so as to wet out the surface for a minimum of 15 minutes without drying. The primer should then be thoroughly power washed from the roof, a final clean water rinse is recommended. Although all efforts have been made to reduce the effect, this product will cause the roof surface to become more slippery. All necessary precautions should be taken by the applicator to avoid injury.

PROPERTIES

Solids		5% minimum
Weight per gal.		9.3 lbs.
Application rate	Dilute 1 part to 4 parts water	300-400 ft ² /gallon
Application		As necessary to allow 15 min. wet time

PRECAUTIONS

Avoid prolonged contact with skin or fumes. This is a highly alkaline material. Wear appropriate protective clothing including rubber gloves and safety goggles. If irritation occurs, flush with water and seek medical attention. If swallowed, do not induce vomiting. Keep out of reach of children.

READ AND FOLLOW DIRECTIONS CAREFULLY. REFER TO MSDS FOR PROPER HANDLING. NOT DOT REGULATED. STORE CONTAINERS IN COOL, DRY, PROTECTED AREA. KEEP FROM FREEZING
